A stockholders' meeting of the United States Masonic Benevolent association was held yesterday forenoon at the Masonic temple and an amendment to the by-laws was adopted which provides that another principal office of the association may be establised at Chicago in addition to the one already here. Secretary Richardson, when questioned yesterday afternoon as to what

this action might mean, stated that he could "We may move our Council Bluffs office to Chicago sometime in the future, but it is entirely problematical. We are incorporated under the laws of Iowa, and the law compels us to keep our records in the state where we are incorporated. We have had an office in Chicago for the past five years, under the management of Mr. Brown, who has had charge of the agencies. He has three clerks, and I have five here. So you can form some idea as to the proportion of business done by each. The object of opening another principal office is merely to bring the department of agencies into closer union with the secretary's office."

Another change in the by-laws was that ith reference to the requirements for admission. When the association was started the membership was not limited to any or even to men, but non-Masons and women | a personal enemy of Eames, was the first to were admitted. Later on the lines were drawn more closely, and only Masons could belong. Now the doors are thrown open a little wider and the age at which people can be admitted is lowered from 21 to 18

Confused the School Board. SHENANDOAH, Ia., Oct. 24.—(Special.)— The school board of the independent district of Shenandoah is in a legal complication without precedent in the state. Under the law a treasurer, not a member of the board, shall be chosen on the third Monday in September at a regular meeting of the board. J. G. Schneider was duly chosen. The bond was presented for acceptance by the board sixteen days thereafter. The law provides that the new treasurer in a district township shall enter upon his duties within ten days after his election, but says nothing about the time in which the treasurer of an inde-pendent district shall qualify. The question of doubt as to accepting Schneider's bond was referred to the state superintendent, who replied that it was a case of law which hi replied that it was a case of law which he could not decide, and inclined to the opinion that the old treasurer would hold over. Attorneys advised the board to accept Schneider's bond. It was done. But the old treasurer refused to transfer the funds and presented a new bond. The board took no action in regard to this bond.
